

PiezoHolder specifications

Code: 010-007-3

Model: PHG3

Applications: Test of piezoceramics for internal cracks detection and capacitance measurement.

Accessories: BNC plug-plug cable 30 cm long.

Compatible geometries and dimensions:

Geometries:	Discs and rings
Outer diameter range:	15-100 mm
Thickness range:	0-19 mm

Electrical parameters:

Connector:	BNC type
Contact resistance:	$\leq 0.5 \Omega$
Frequency range:	1-200 kHz
Maximum voltage:	10 VAC _{RMS} / 15 VDC
Maximum current:	1 A _{RMS}

Use instructions: <https://www.atcp-ndt.com/en/essentials/piezoceramics-testing.html>

Version: 1.3 / Henrique Alves – 28/Nov/2022.
